The student will show up in the table below it.

Uh-oh, looks like we have the wrong birthdate for the student and tuition cost. No worries, we can just update his information!

ID	Name	Birthdate	Tuition
42134	Drey	03-18-2001	4329

To modify a student click on the row and make sure it's highlighted.

After doing that click on modify student.

A window should pop-up similar to the add student window, after entering the correct information it should update.

ID	Name	Birthdate	Tuition
42134	Drey	03-18-2001	4329

**Modify Student**

Look at that, you successfully update this students information!

If you can navigate through the student's section, then you tackle the teachers section just fine!

ID	Name	Birthdate	Tuition
42134	Drey	03/19/2001	4000
